

THORNBOROUGH INFANT SCHOOL

Remote Learning Advice for Families

Remote education provision: Information for parents

This information is intended to provide clarity and transparency to pupils and parents or carers about what to expect from remote education if local restrictions, or personal circumstances, occur.

The remote curriculum: what is taught to pupils at home:

A pupil's first day or two of being educated remotely might look different from our standard approach, while we take all necessary actions to prepare for a longer period of remote teaching.

What should my child expect from immediate remote education in the first day or two of pupils being sent home?

- Your child will be sent home with additional reading books
- The school will put together either an email or Dojo overview with links and guidance for the first few days of remote learning.

Following the first few days of remote education, will my child be taught broadly the same curriculum as they would if they were in school?

- We teach the same curriculum remotely as we do in school.

Remote teaching and study time each day

How long can I expect work set by the school to take my child each day?

We expect that remote education (including remote teaching and independent work) will take pupils broadly the following number of hours each day:

Primary school-aged pupils	Key Stage 1: 3 hours a day on average across the cohort, with less for younger children
-----------------------------------	--

Accessing remote education

How will my child access any online remote education you are providing?

- **Class Dojo to access the video for the daily input**
- **Videos are uploaded daily – if Dojo becomes problematic then videos will be emailed**
- **Padlet may be used, so families can see the overview of all the subjects for the week**
- **Website link on school site to access**

If my child does not have digital or online access at home, how will you support them to access remote education?

We recognise that some pupils may not have suitable online access at home. We take the following approaches to support those pupils to access remote education:

- **Children who need devices can speak to the School, via the office, and we will support them in any way that we are able**
- **School has made clear communication to families regarding devices and access – they have emailed the school and we are aware of specific families needing access.**
- **If family circumstances change, school have made it clear that families can contact us and we will accommodate their changing needs.**
- **If printing is an issue – we can and will print off in school and provide for children – either by sending or dropping off in person**
- **If uploading your work is an issue – school needs to be informed and we will provide resources and opportunities for staff to access their work/mark/assess and return.**
